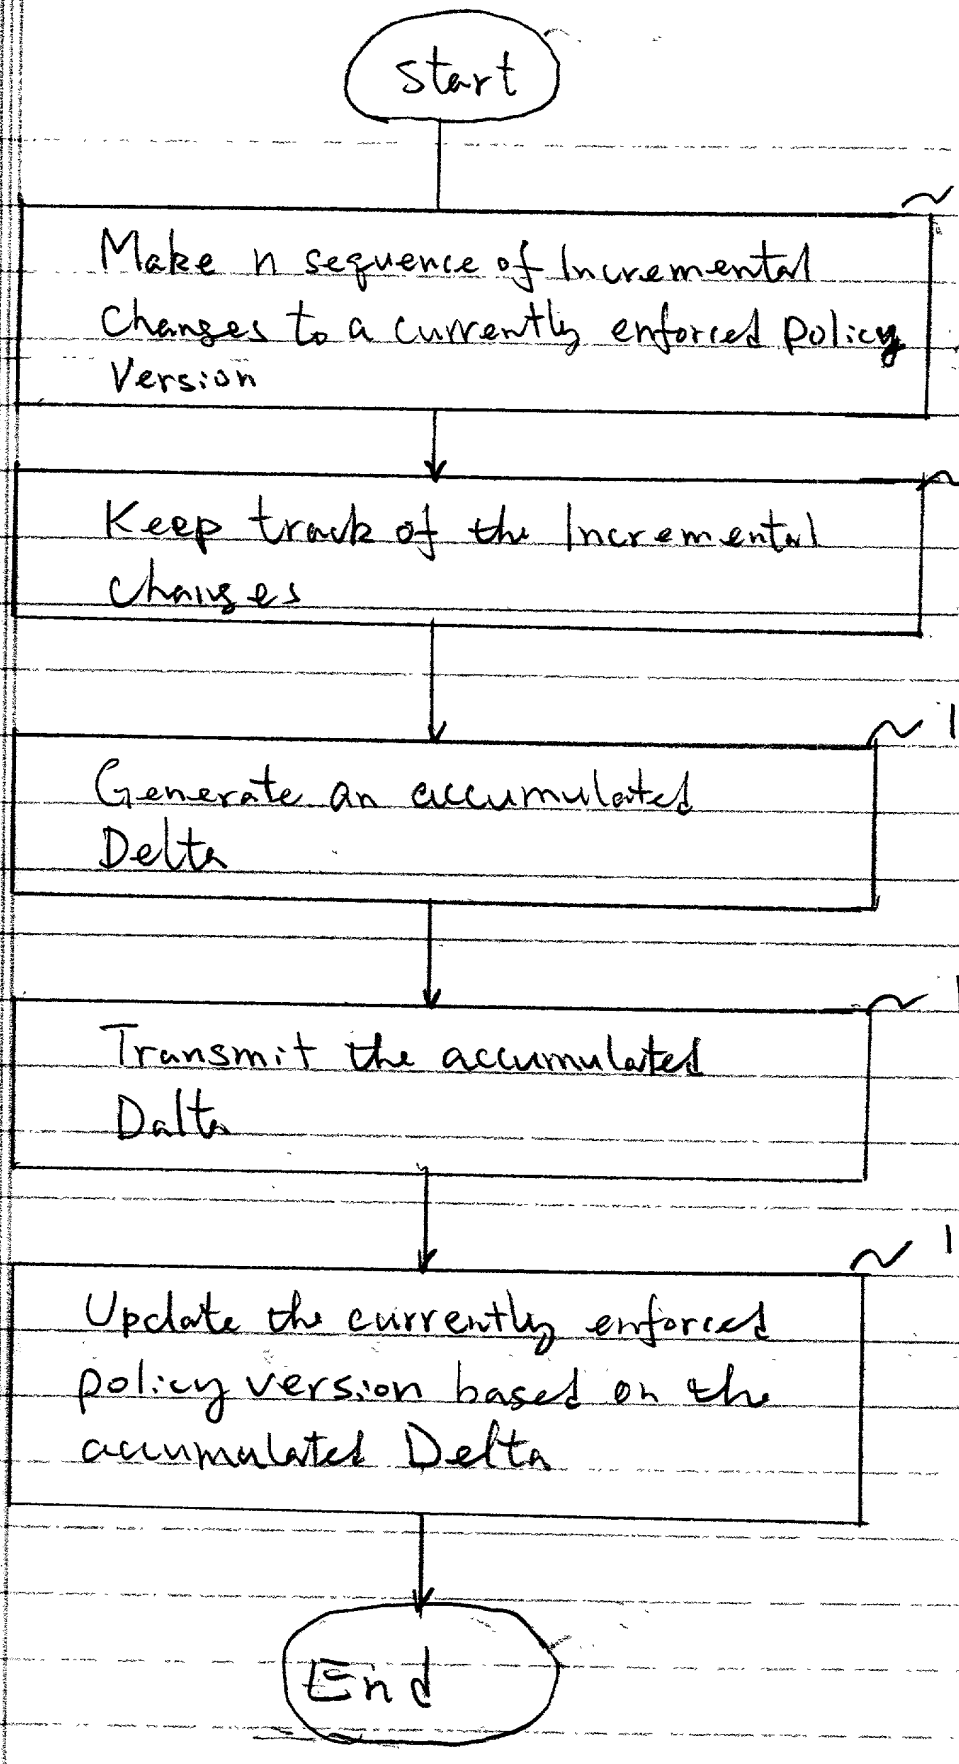
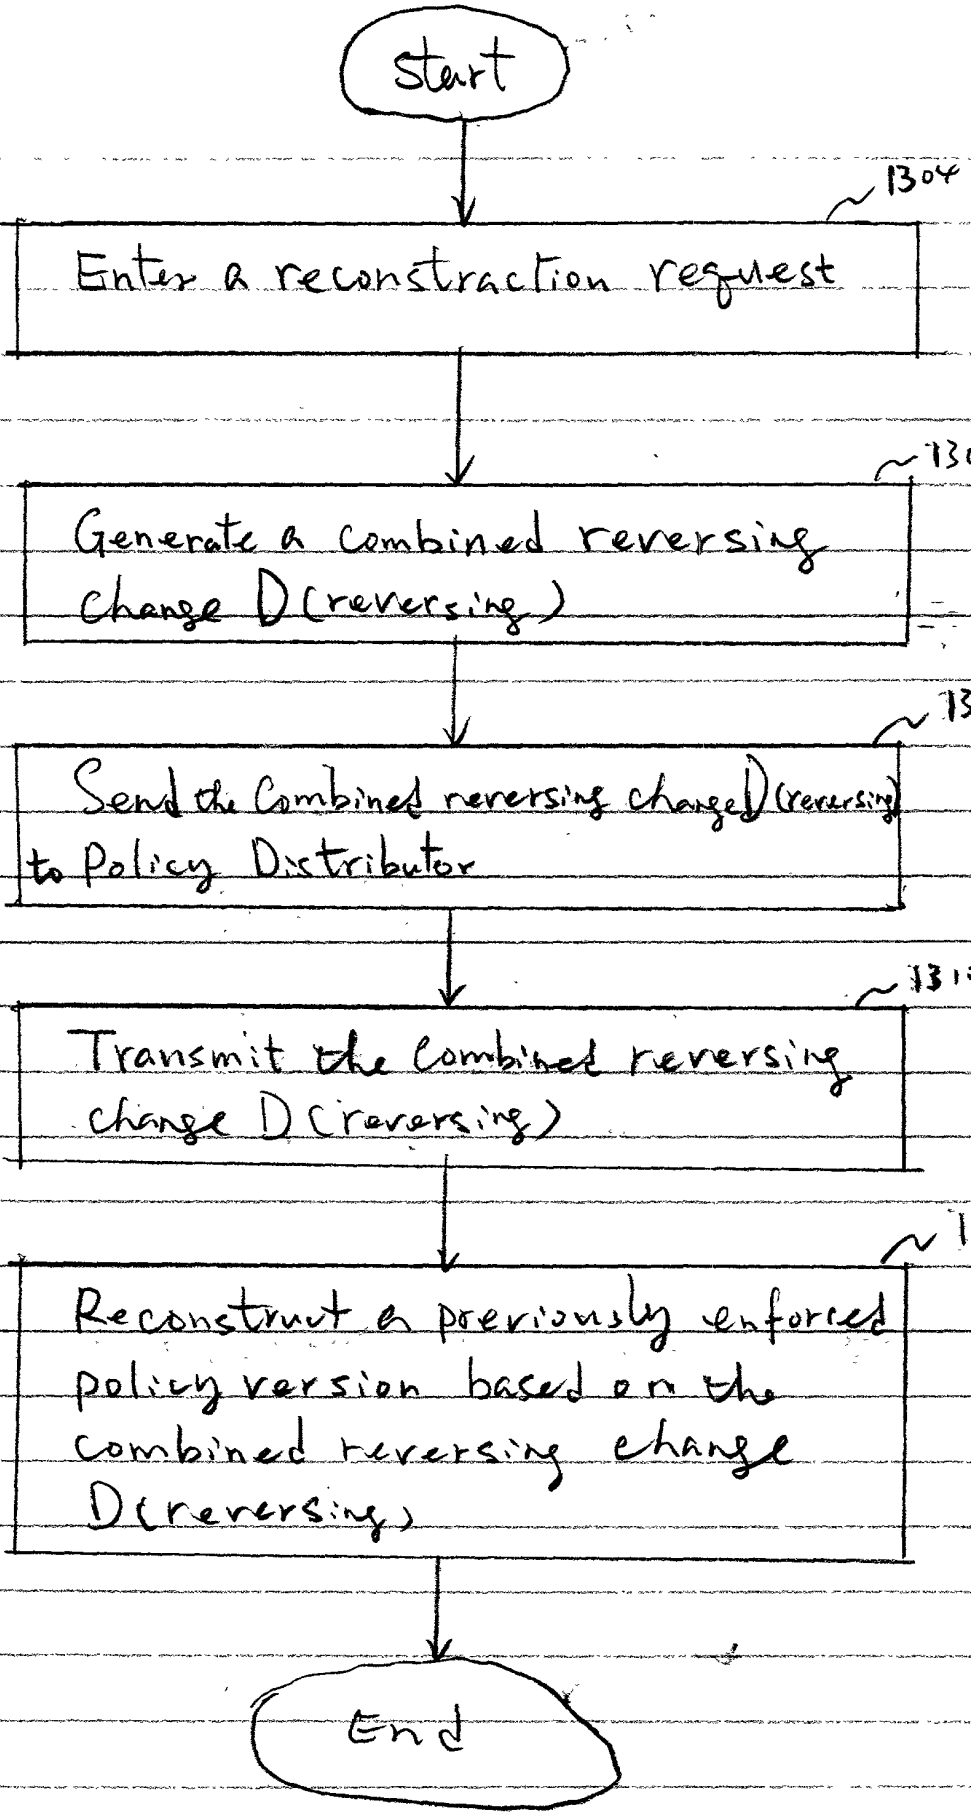
FIG. 11



Start
1204
Make n sequence of Incremental Changes to a currently enforced Policy Version
1206
Keep track of the Incremental Changes
1208
Generate an accumulated Delta
1210
Transmit the accumulated Dalta
1212
Update the currently enforced policy version based on the accumulated Delta
End

FIG. 12



Start
1304
Enter a reconstraction request
1306
Generate a combined reversing change D(reversing)
1308
Send the Combined reversing change D(reversing) to Policy Distributor
1310
Transmit the Combined reversing change D(reversing)
1312
Reconstruct a previously enforced policy version based on the combined reversing change D(reversing)
End

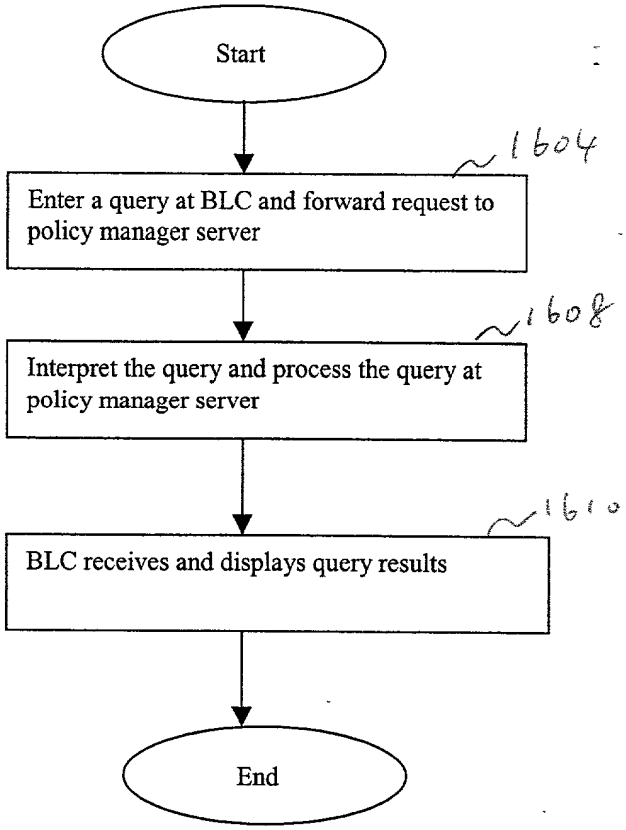
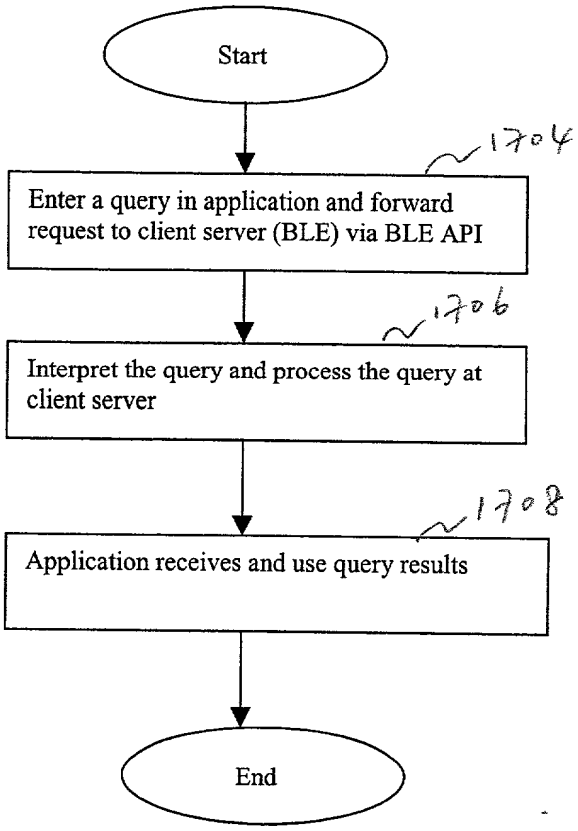
FIG. 15



Start
1604
Enter a query at BLC and forward request to policy manager server
1608
Interpret the query and process the query at policy manager server
1610
BLC receives and displays query results
End

FIG. 16



Start
1704
Enter a query in application and forward request to client server (BLE) via BLE API
1706
Interpret the query and process the query at client server
1708
Application receives and use query results
End
